

Name of company	Dalekovod, Joint Stock Company for engineering, manufacturing and construction
Address of company	Vukomericka b.b., HR-10410 Velika Gorica, Republic of Croatia
Contacts	Phone: 00 385 (0)1 6229 900 Fax: 00 385 (0)1 6221 199 Mail: tvornica@dalekovod.hr
Web page	http://www.dalekovod.hr
Materials of castings:	Aluminium and aluminum alloys, bronzes, zinc alloys
Capacity of production	700 tons per year
Production program	suspension and jointing equipment for high voltage transmission lines equipment for bare and insulated overhead electroenergetic networks aerial bundle conductor accessories accessories for substations and switchyards up to 500 kV fibre-optic cable equipment contact network accessories
Equipment in foundry	Five induction furnaces for aluminium melting (capacity 80 kg each) two tilting induction furnaces for aluminium bronze and tin lead bronze melting (capacity 100 kg and 250 kg) 12 electrical resistance furnaces 13 posts for gravitational die casting Sand casting equipment Automated line for heat treatment (water quenching) Annealing and tempering furnace
Quality	ISO 9001:2008 Quality management systems by Lloyd's Register Quality Assurance ISO 14001:2004 Environmental management systems by Lloyd's Register Quality Assurance OHSAS 18001:2007 Occupational Health and Safety BY TÜV Nord
References	<ul style="list-style-type: none"> - Suspension equipment for large number of high-voltage transmission lines throughout the world (Croatia, Saudi Arabia, Norway, Island, Greenland, Estonia, Slovenia, Serbia, Kazakhstan, England, Switzerland, Ireland, Bulgaria, Bosnia and Herzegovina, France, Finland, Germany, Oman, Israel, UAE, Egypt, Pakistan, Austria, Iraq, Turkey, Spain, Chile, Brazil, Nigeria, Albania, Montenegro, Kosovo, etc.) - Jointing equipment for high voltage substations
